

Agent-Based Modeling and Spatial Population Dynamics Workshop

Friday, December 07, 2007

The Brookings Center on Social and Economic Dynamics and the Metropolitan Policy Program jointly hosted an NICHD funded Agent Based Modeling and Spatial Population Dynamics Workshop. Researchers from across the country attended the workshop to discuss current projects, to gain insight into agent-based modeling, and to unearth issues for future research collaboration.

Participants:

Dan Brown

University of Michigan

Gary Burtless

Brookings

Rebecca Clark

National Institutes of Health

Mark Ellis

University of Washington

Barbara Entwisle

University of North Carolina

Joshua M. Epstein

Brookings

Chris Fowler

University of Washington

William Frey

Brookings

Carol Graham

Brookings

Emily Groves

Brookings

Tim Gulden

University of Maryland

Guillermina Jasso

New York University
Ben Klemens
Brookings

Michael Macy
Cornell University

Steven Manson
University of Minnesota

Robert Mare
UCLA

Gordon McDonald
Brookings

James Moody
Duke University

David Park
Brookings

Matthew Raifman
