Promoting Quality in Education

Educational Reform in the City of Buenos
Aires Argentina

Buenos Aires Ciudad

Haciendo
buenos aires

Contents

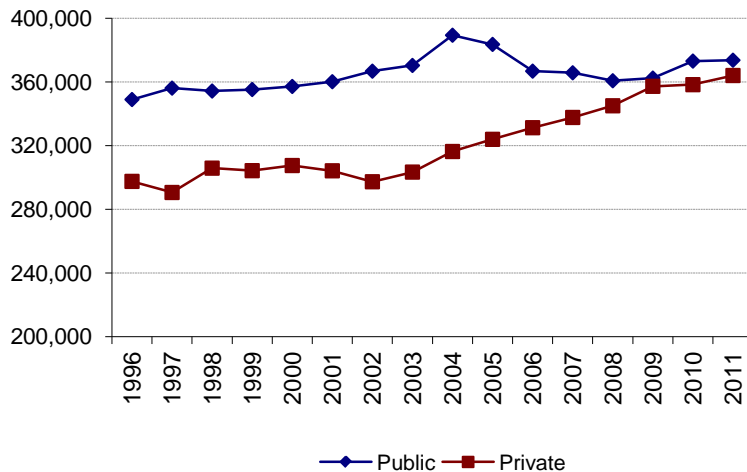

- Our Goals
- Our Statistics
- Public and private enrollment
- Changing the Agenda
- First impact
- Our new focus

Ciudad de Buenos Aires Education System

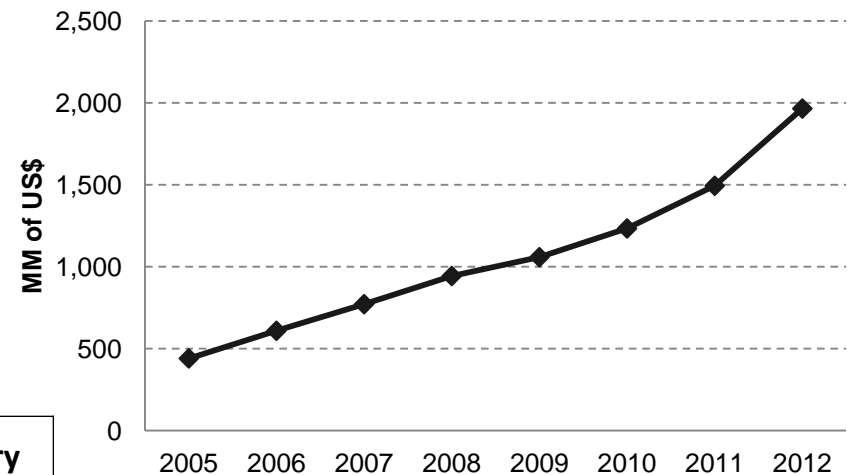

**737.821
students**

**2.686
schools**

Enrollment

Ministry of Education Budget

Public Education Efficiency Indicators

Efficiency indicators	Primary	Secondary
Repetition rate	2,90%	15,70%
Overage	17,20%	48,00%
Drop out rate	0,30%	7,30%
Effective promotion	91,10%	34,30%

First things First

We needed to solve basic issues to then focus in improving Quality

1st Stage 2008-2010

- Solve the schools infrastructure crisis
- Revitalize teachers' salaries
- Increase the access to early childhood education

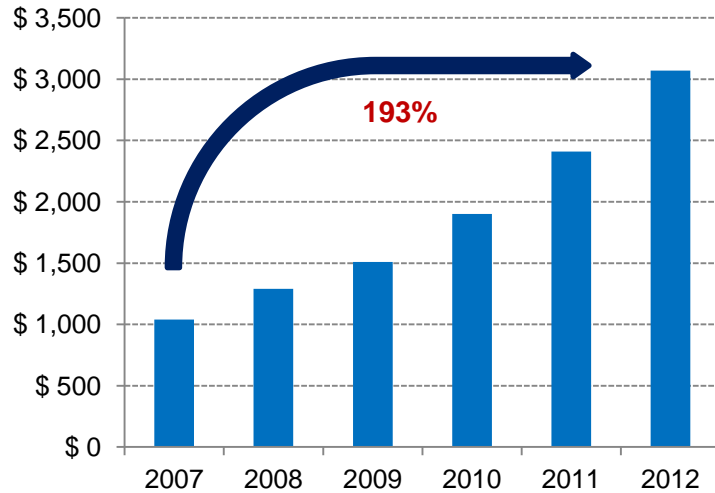

2nd Stage 2011-2015

- **Make Quality the Education Agenda**
- Evaluate and assess every aspect of the system
- Implement an integral approach to Digital education
- Help students develop 21st century skills
- Strengthen Families engagement in the education process/inclusive education

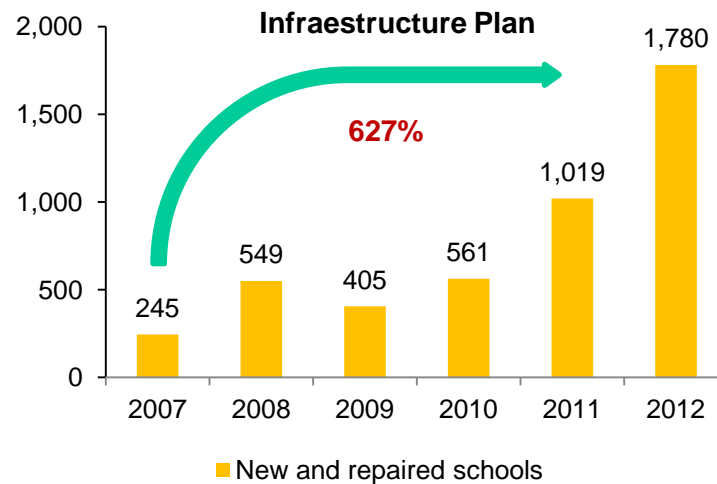

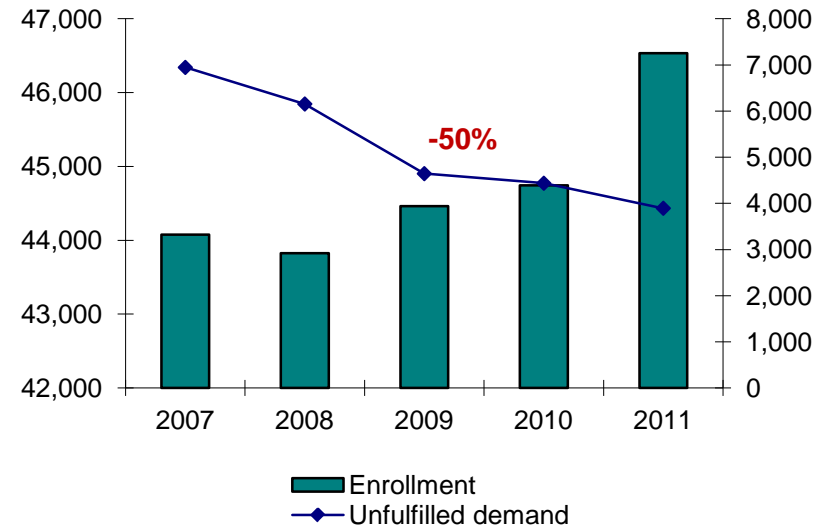

1st Stage Plan showed strong results

1st Stage
2008-2010

Teachers' Salaries Evolution

Early Childhood Education Evolution

**2nd Stage
2011-2015**

Improve quality to
positively impact
students lives

Student-Centered
System

Strengthen **school-
family** alliance

Promote Quality in
inclusive education

**Every very student can achieve
quality education** despite of his/her
socio-demographic background.

Principles

Embody our beliefs about what is important and desirable in evaluation processes

Participative design

The instrument is build with representatives of the educational system.

Valid and reliable instruments

Instruments are validated before final application. Pilot testing.

Effective communication

Anticipated and clear information about evaluation processes available to the school community.

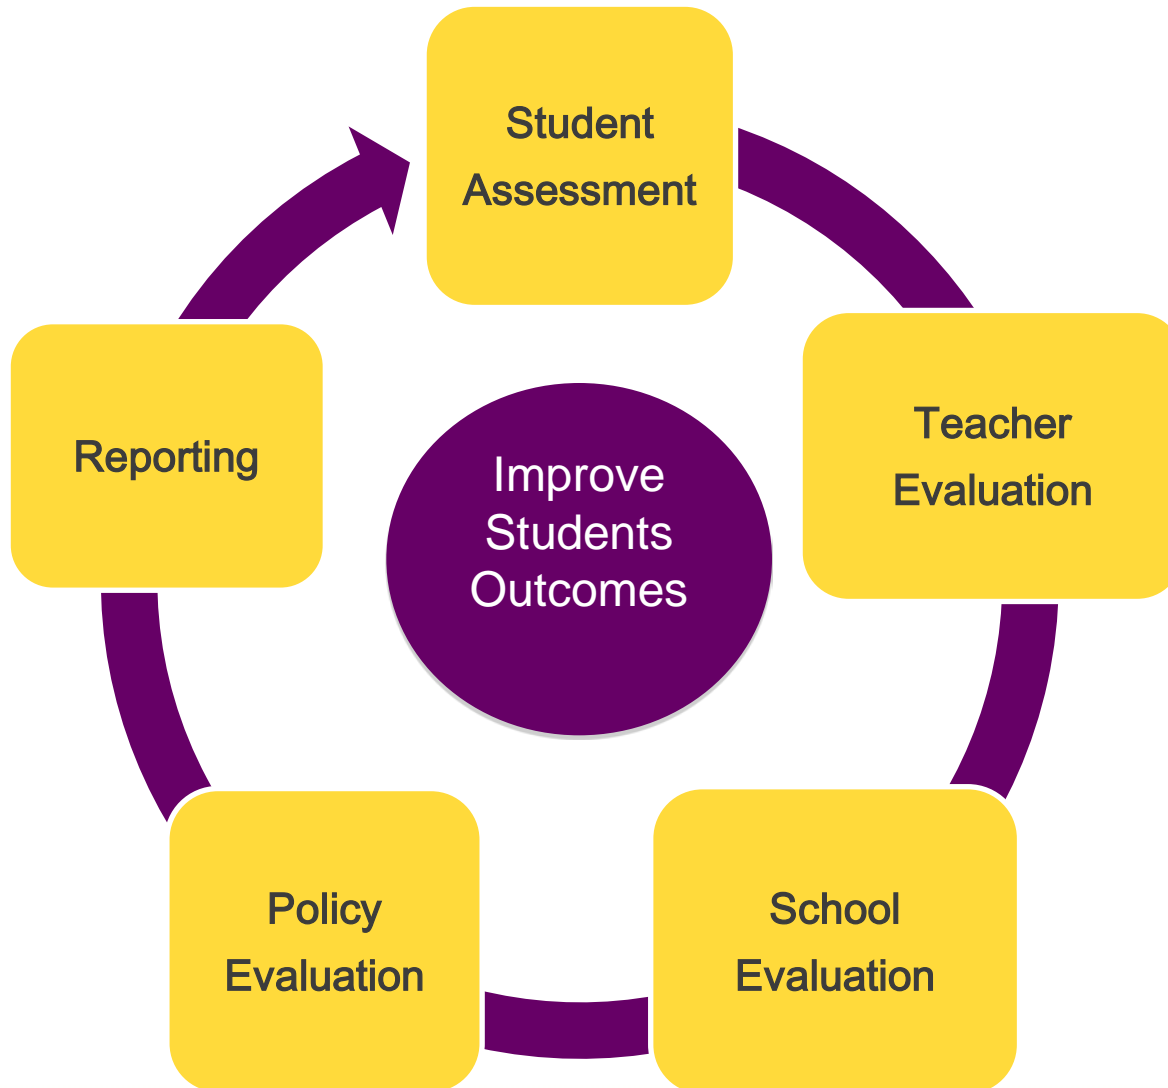

Feedback

State and individual school reporting -improvement workshops in schools-.

Improvement

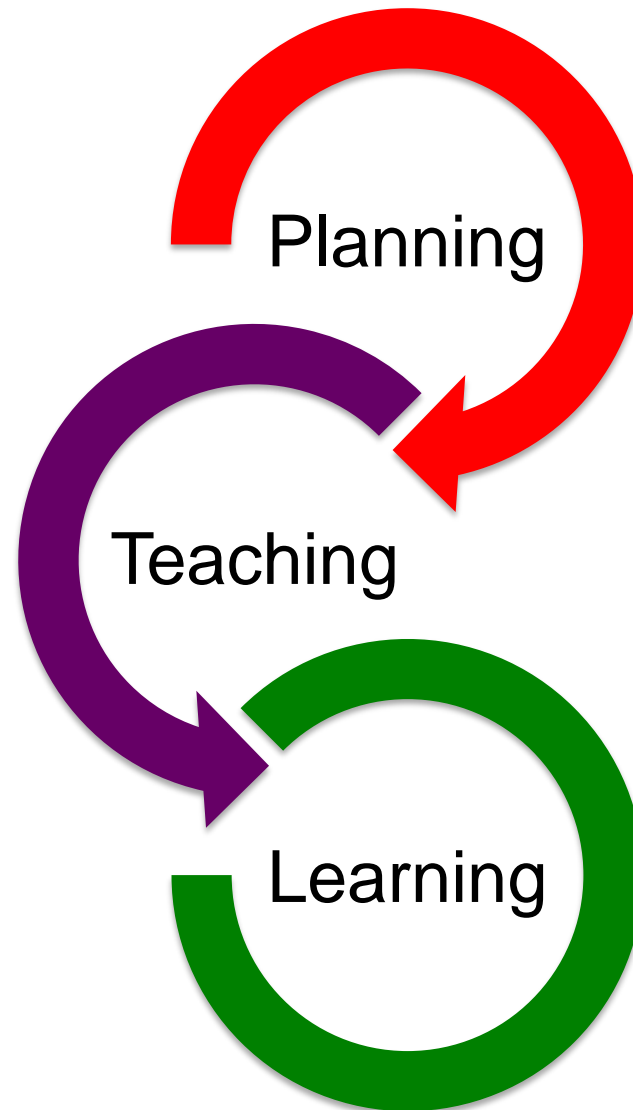

Improve learning and teaching processes in every school. Improve student learning outcomes.

The Evaluation and Assessment Plan focuses in Improving Students' outcomes

- Strategic data collation
- Critical and effective use of information for policy development.
- Raise community awareness about the importance of evaluating.

Towards Improvement

Teaching objectives

Learning objectives
School Project
School Evaluation

Teacher Evaluation

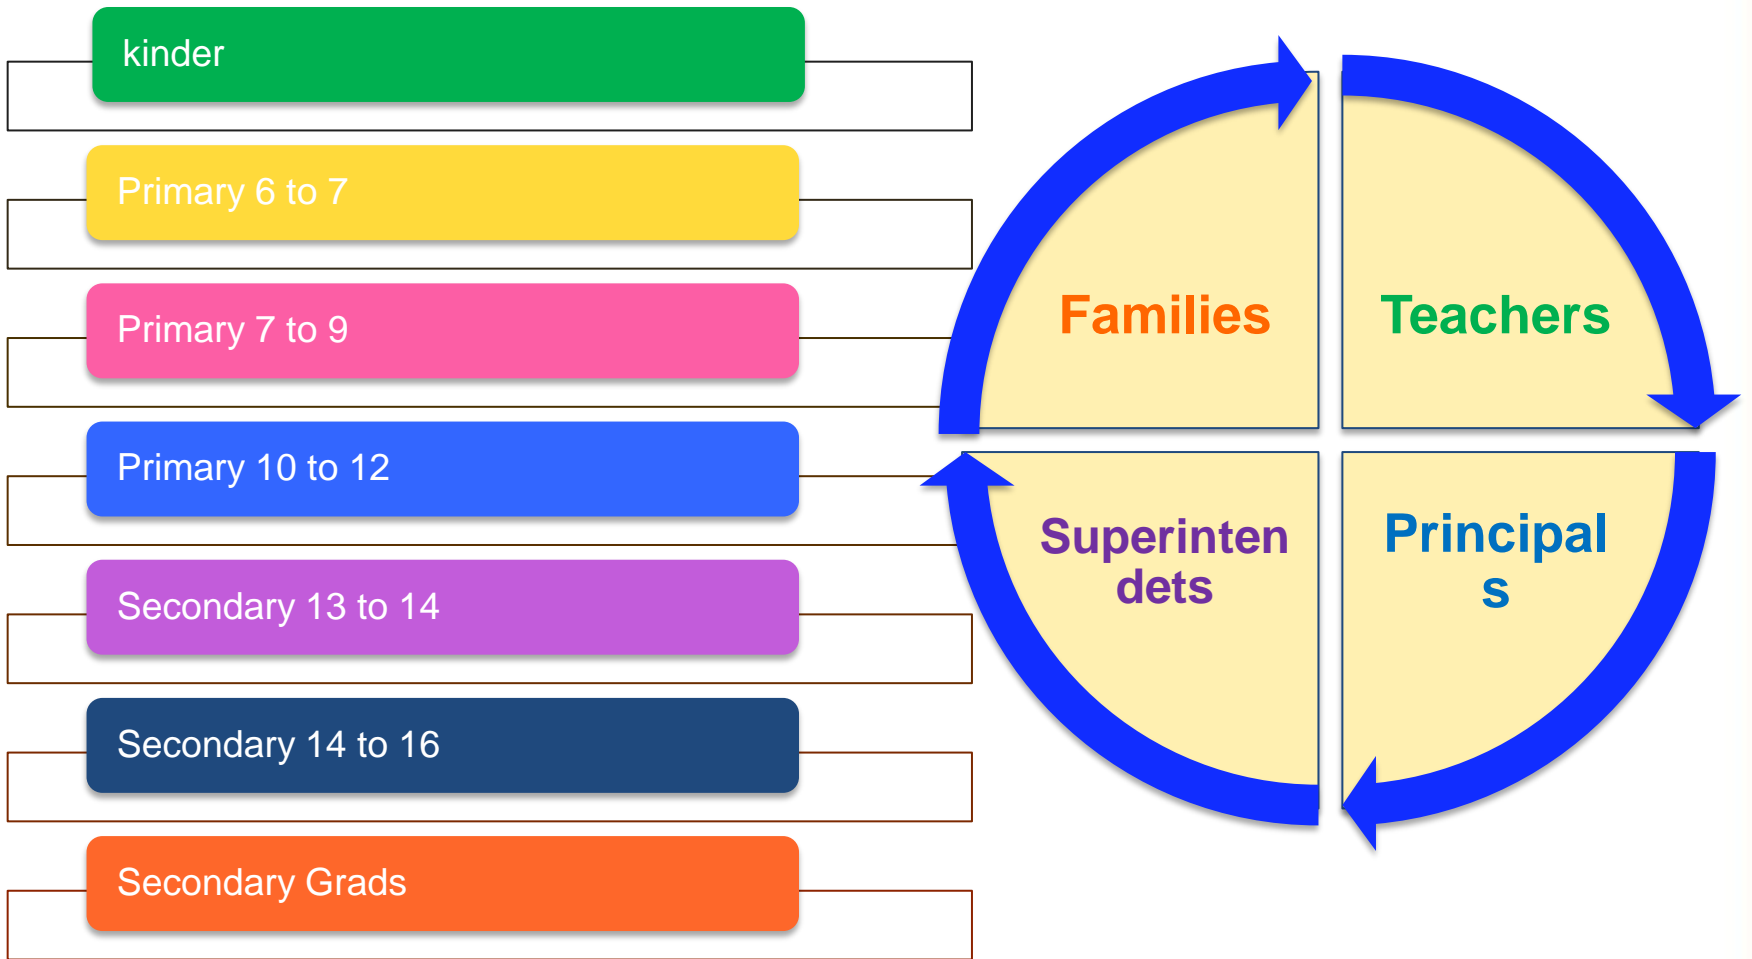

Instructional resources
and strategies
Professional
development

Student Assessment

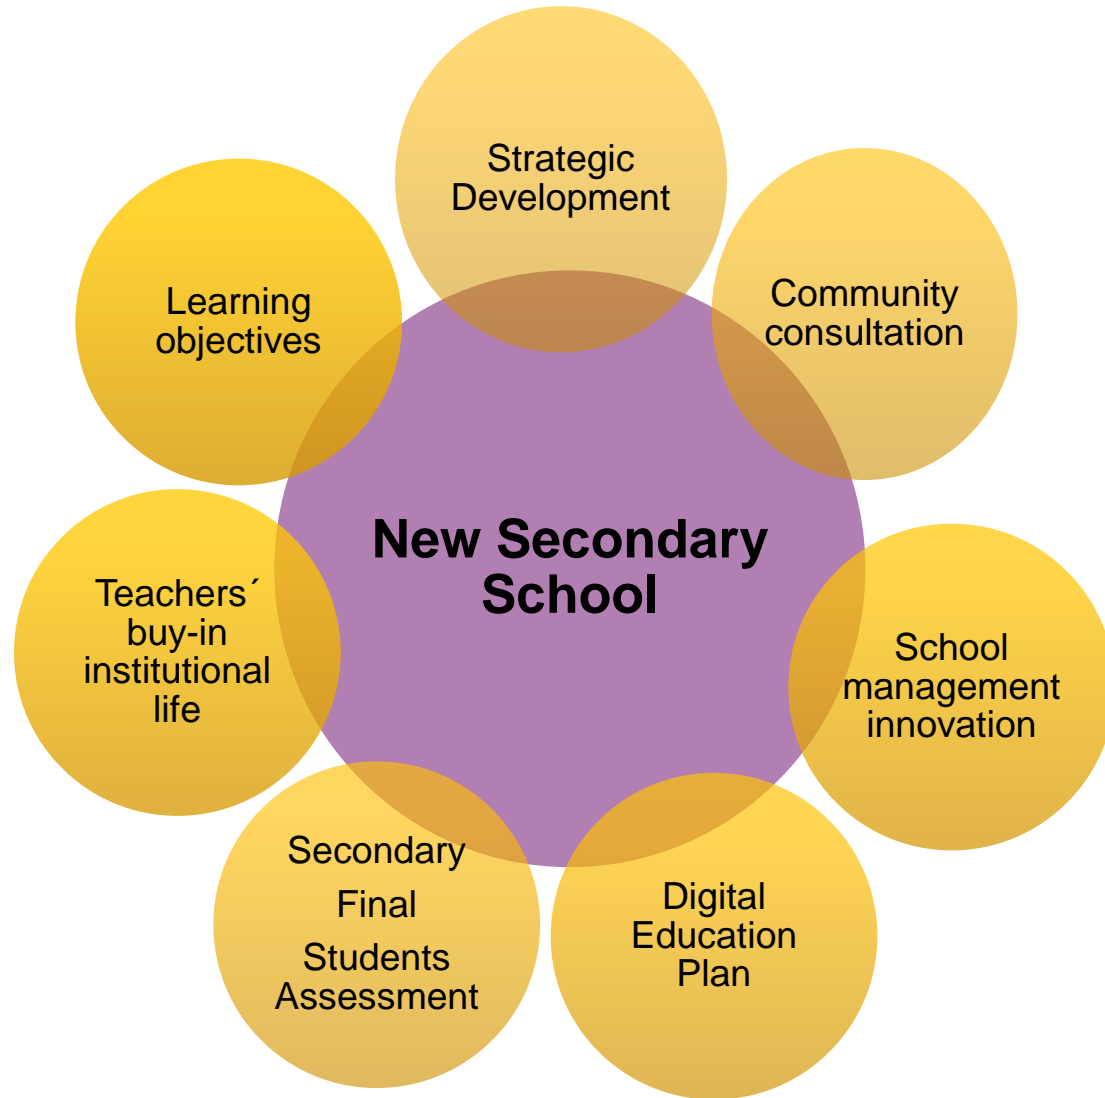

Progress of Individual
Students
Information Systems

Building Learning Objectives

Enriching class practices

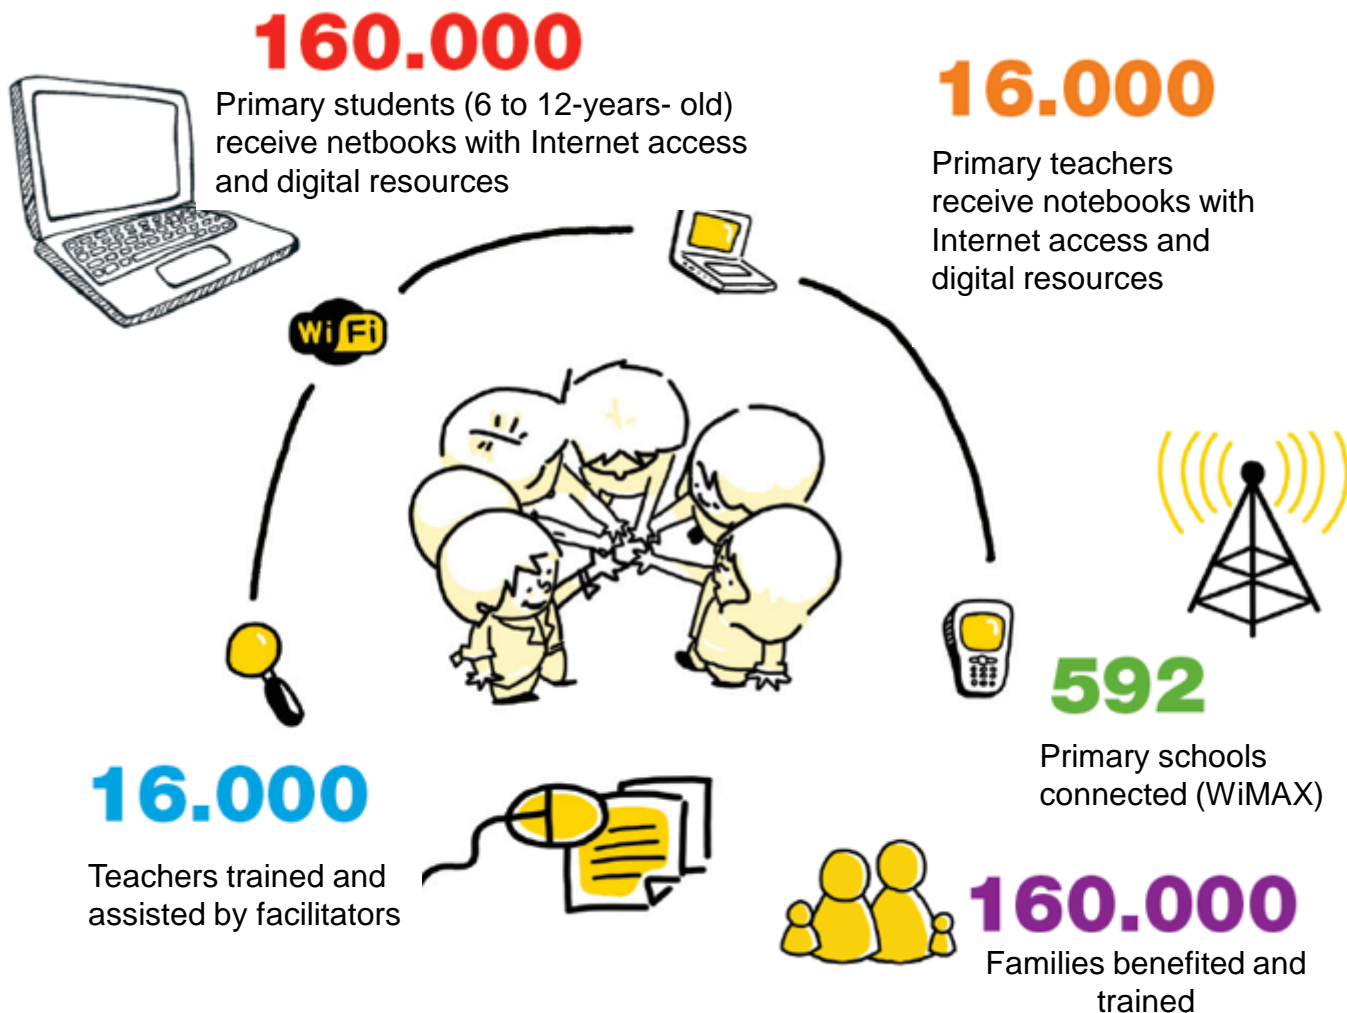

Students need new skills to enter the 21st world

Plan Sarmiento BA: Digital Education Plan

Innovation in teaching and learning process

We strongly believe in education as the best and unique path to enrich student's lives.

Thank you very much for your time!
