

# CDRH Piloting Efforts: UDID and Master Data Management

Terrie Reed – FDA/CDRH

The Brookings Institution • Washington, DC  
December 13, 2012

# UDID – Foundation for Integration of UDI in Healthcare Electronic Data

---

## ***Ensure Data Quality with MDM Strategy (6 mo)***

- Engaged MDM experts
- Aligning with other FDA Centers
- Aligning with Agency Office of Information Management
- Aligning with External Stakeholders like You
- Need to Set Foundation for future: To Govern Key Data

## ***How to achieve?***

- Don't Start with Tools – Start with Governance
- Stand up a Data Quality Program (***6 mo to begin***)
  - Start with 6 month pilot
  - Iterative refinement

# UDI – Data Quality Pilot

## CDRH MDM Pilot

### Pilot Tasks

- Clarify Definitions
- Require Consistency
- Validate Business Rules
- Improve Data Quality

### Pilot Goals:

- Better Identification
- Increased Confidence in Analysis
- Better Decisions
- Improved Safety & Effectiveness
