\* The National Science Foundation's (NSF) Advanced Technology Education program is funded at \$36 million from the existing NSF Education and Human Resources program (CFDA code 47.076). As such, the \$36 million was subtracted from NSF Education and Human Resources program entry in the R&D category to avoid double-counting dollars.

† The NSF Industry / University Cooperative Research Center Program is funded through the NSF Engineering (CFDA code 47.041) and NSF Computer and Information Science and Engineering (47.070) programs. The NSF Engineering Research Center Program is funded through the NSF Engineering program (47.041). The Department of Energy's (DOE) Industrial Technologies Program is funded through the DOE Conservation Research and Development program (81.086).

^ The National Science Foundation's (NSF) Partnerships for Innovation program is funded through eight existing NSF programs: Biological Sciences (CFDA code 47.074); Computer and Information Science and Engineering (47.070); Education and Human Resources (47.076); Engineering (47.041); Geosciences (47.050); Mathematical and Physical Sciences (47.049); Office of Polar Programs (47.078); and Social, Behavioral, and Economic Sciences (47.075).

~ Funding from the Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs totalled \$2.0 billion and \$233 million, respectively, in 2006 and is included within programs in the R&D category. NASA, the Department of Education, and the Department of Homeland Security have separate line items within the database, as they have no programs that appear in the R&D category of this database. For background on the SBIR and STTR programs, see a helpful summary at the National Institute of Health's Office of Extramural Research: [http://grants.nih.gov/grants/funding/sbirsttr\\_programs.htm](http://grants.nih.gov/grants/funding/sbirsttr_programs.htm).
