Education

Ph.D., Politics, Princeton University, June 2012

Dissertation: "Contested Constraints: Regulatory Statutes in America's Modern Administrative State."
Committee: Keith E. Whittington (chair), R. Douglas Arnold, David E. Lewis (Vanderbilt University)

M.A., Politics, Princeton University, 2009

Fields: American Politics, Public Law, and Formal and Quantitative Analysis.

B.A., College of Social Studies (Honors), Wesleyan University, 2005

Book

To the Edge: Legality, Legitimacy, and the Responses to the 2008 Financial Crisis (Washington: Brookings Institution Press, April 2015).

The book addresses questions about the recent financial crisis that have been much neglected: namely, how did the responses to the crisis by the Treasury Department and Federal Reserve square with the rule of law? When and why did the public question the legitimacy of the government's crisis responses? After offering a conceptual and historical foundation for answering these questions, the book provides a legally detailed examination of government actions from 2008 through 2012 and the reactions to them and offers responsible and realistic ways of responding to citizen demands for strengthening accountability mechanisms during crises.
