<i>Introduction</i>	1
ERNESTO ZEDILLO	
PART ONE	
Climate Change Detection and Scenarios: Reexamining the Evidence	11
1 <i>The IPCC: Establishing the Evidence</i>	13
R. K. PACHAURI	
2 <i>Is the Global Warming Alarm Founded on Fact?</i>	21
RICHARD S. LINDZEN	
3 <i>Anthropogenic Climate Change: Revisiting the Facts</i>	34
STEFAN RAHMSTORF	

PART TWO

Measuring Our Vulnerabilities to Climate Change 55

- 4 *“Dangerous” Climate Change: Key Vulnerabilities* 57
STEPHEN H. SCHNEIDER

- 5 *The Policy Implications of Climate Change Impacts* 82
ROBERT MENDELSON

PART THREE

The Kyoto Protocol: Consequences and Opportunities for Transformation 89

- 6 *Economic Analyses of the Kyoto Protocol: Is There Life after Kyoto?* 91
WILLIAM D. NORDHAUS

- 7 *The European Emissions Trading Regime and the Future of Kyoto* 101
GERNOT KLEPPER AND SONJA PETERSON

PART FOUR

Alternative Climate Policy Options 113

- 8 *Climate Change: Designing an Effective Response* 115
THOMAS HELLER

- 9 *An International Policy Architecture for the Post-Kyoto Era* 145
ROBERT N. STAVINS

PART FIVE

Climate Policy in the Industrialized Countries 155

- 10 *Controversies of Russian Climate Policy and Opportunities for Greenhouse Gas Reduction* 157
ALEXANDER GOLUB

- 11 *Climate Policy in the United Kingdom* 175
HOWARD DALTON

- 12** *Canada's Approach to Tackling Climate Change* 193
JOHN M. R. STONE

PART SIX

- Linking Climate Change Control
and Development Policies** 203

- 13** *India and Climate Change: Mitigation, Adaptation,
and a Way Forward* 205
JYOTI PARIKH

- 14** *Correct Choices for China: Energy Conservation,
a Cyclic Economy, and a Conservation-Minded Society* 215
SHEN LONGHAI

- Contributors* 225

- Index* 227
