

Mississippi

Advanced industries employ

83,812

full-time workers. (2015)

These direct jobs supports an additional

67,050

indirect jobs in other industries in
the region.

Advanced industries produce

\$12.7

billion dollars in output in the region.
(2015, 2009 Chained)

Advanced industries pay, on average

\$62,581

dollars per year (2015).

Advanced industries directly
account for

6.9%

of all jobs in the region.

This employment share is

#36

among all states.

This accounts for

13.3%

of all output in the region (2015).

This compares to average pay of

\$38,082

for all industries (2015).

What are Advanced Industries?

The Metropolitan Policy Program at Brookings defines advanced industries as those that: 1) Spend at least \$450 per worker per year on R&D and 2) employ at least 20 percent of their workforce in STEM-intensive occupations. The definition identifies 50 4-digit NAICS industries across the manufacturing, energy, and services sectors that together constitute the advanced industries super-sector.

Why do Advanced Industries Matter?

Advanced industries encompass the nation's "tech" sector at its broadest and most consequential. They represent a sizable economic anchor for the U.S. economy and have led the post-recession employment recovery. Their competitiveness and growth are prerequisites for any future broadly shared prosperity. As such, the sector encompasses the country's best shot at supporting innovative, inclusive, and sustainable growth. Advanced industries are present in nearly every U.S. region, but the sector's geography is uneven.
