

## Gadsden, AL

Advanced industries employ

**1,621**

full-time workers. (2015)

These direct jobs supports an additional

**1,300**

indirect jobs in other industries in the region.

Advanced industries produce

**\$0.3**

billion dollars in output in the region.  
(2015, 2009 Chained)

Advanced industries pay, on average

**\$50,220**

dollars per year (2015).

Advanced industries directly account for

**4.2%**

of all jobs in the region.

This employment share is

**#217**

among all small metros.

This accounts for

**9.8%**

of all output in the region (2015).

This compares to average pay of

**\$34,645**

for all industries (2015).

Advanced industry annual average growth, 2013-2015

### What are Advanced Industries?

The Metropolitan Policy Program at Brookings defines advanced industries as those that: 1) Spend at least \$450 per worker per year on R&D and 2) employ at least 20 percent of their workforce in STEM-intensive occupations. The definition identifies 50 4-digit NAICS industries across the manufacturing, energy, and services sectors that together constitute the advanced industries super-sector.

### Why do Advanced Industries Matter?

Advanced industries encompass the nation's "tech" sector at its broadest and most consequential. They represent a sizable economic anchor for the U.S. economy and have led the post-recession employment recovery. Their competitiveness and growth are prerequisites for any future broadly shared prosperity. As such, the sector encompasses the country's best shot at supporting innovative, inclusive, and sustainable growth. Advanced industries are present in nearly every U.S. region, but the sector's geography is uneven.
