Note: Blanks in the historical data indicate years and occupations for which Congressional Quarterly did not compile data. Some members say they have more than one occupation. Data counted as of the end of the first session of each congress. For the 83rd - 113th congress, these numbers reflect those reported by Congressional Quarterly, whose methodology has changed over time. CQ has since stopped publishing these data by party, so for the 115th congress occupations were coded based on information provided in member profiles published by CQ. Fluctuations in totals between congresses that are larger than the seats lost/gained between congresses represent these methodological changes.

Data from earlier years/previous versions of this table have been changed. Please see the errata document for more details.

a. For these congresses, CQ almanac did not provide occupation data. Instead, data for each representative was taken from an earlier or later congress of which they were also a member. One-term members in these congresses were individually coded based on their biographical data.
