

Input-Output README
December 10, 2015

Office of Employment Projections, Employment Outlook: 2014-2024
Input-Output (I-O) Tables for 1997 through 2014, Projected 2024

Jared Teeter	Teeter.Jared@bls.gov	(202)691-5688
Richard Graham	Graham.Richard@bls.gov	(202)691-5692

Data provided are input-output (I-O) tables and final demand (FD) data for 1997 through 2014 and projected 2024. In addition, BLS also provides layout, description, and sectoring plan files.

The following PDF, CSV, and EXCEL files are provided:

io_layout.pdf	Contains the layout of the I-O and FD CSV files
io_desc.pdf	Contains the documentation pertaining to the I-O data files
sect_final_demand_x159.xlsx	Final demand sectoring plan descriptions (159 sectors)
Sect313.xlsx	Industry sectoring plan descriptions (206 sectors and 104 summary sectors)

The data files contain comma separated values data with row and column sector identifiers. These identifiers may be used in conjunction with the sectoring plan files to obtain labels and titles. The data files are contained in the following folders located within the zip file:

ionom - 1997 through 2014 historical nominal (current) dollar input-output tables

ioreal - 1997 through 2014 historical chain weighted real 2009 dollar input-output tables

io2024 - Projected 2024 input-output tables were created in chain weighted real 2009 dollars only
