## Chinese Politics in the Xi Jinping Era

*Reassessing Collective Leadership*

Cheng Li

*Chinese Politics in the Xi Jinping Era* examines how the structure and dynamics of party leadership have evolved since the late 1990s and argues that “inner-party democracy”—the concept of collective leadership that emphasizes deal making based on accepted rules and norms—may pave the way for greater transformation within China’s political system. Cheng Li also addresses the recruitment and composition of the political elite, a central concern in Chinese politics.

### China

## Hong Kong in the Shadow of China

*Living with the Leviathan*

Richard C. Bush

*Hong Kong in the Shadow of China* is a reflection on the recent political turmoil in Hong Kong during which the Chinese government insisted on gradual movement toward electoral democracy, and hundreds of thousands of protesters occupied major thoroughfares to push for full democracy now. Fueling this struggle is deep public resentment over growing inequality and how the political system—established by China and dominated by the local business community—reinforces the divide between those who have profited immensely and those who struggle for basics such as housing.

## Countering Terrorism

*No Simple Solutions*

Martha Crenshaw and Gary LaFree

Two leaders in the field of terrorism studies, Martha Crenshaw and Gary LaFree, provide a critical look at how we have dealt with the terror threat over the years. They make clear why it is so difficult to create policy to counter terrorism. The foes are multiple and often amorphous, the study of the field dogged by disagreement on basic definitional and methodological issues, and the creation of policy hobbled by an exacting standard: the counterterrorist must succeed all the time, the terrorist only once. As *Countering Terrorism* shows, there are no simple solutions to this threat.
