#### ACKNOWLEDGMENT OF ASSISTANCE

All manuscripts utilizing data made available through the Consortium should acknowledge that fact as well as identify the original collector of the data. The ICPSR council urges all users of ICPSR data facilities to follow some adaptation of this statement with the parentheses indicating items to be filled in appropriately or deleted by the individual user.

The data (and tabulations) utilized in this (publication) were made available (in part) by the Inter-university Consortium for Political and Social Research. The data for the Current Population Survey: Annual Demographic File, 1977 were originally collected by the United States Bureau of the Census. Neither the original collectors of the data nor the Consortium bear any responsibility for the analyses or interpretations presented here.

In order to provide funding agencies with essential information about the use of archival resources, and to facilitate the exchange of information about ICPSR participants' research activities, each user of the ICPSR data facilities is expected to send two copies of each completed manuscript or thesis abstract to the Consortium. Please indicate in the cover letter which data were used.

## STUDY DESCRIPTION

Annual Surveys of the population of the United States, conducted by the U.S. Census Bureau, have been obtained by ICPSR in each of the years from 1968 to 1977. These files are often referred to as the March CPS Demographic Supplements. The latest in this series is the survey for 1977. Contained in this data file are records for the families selected in the samples as well as for each person in the family. A total of 288,254 records for 1977 include such characteristics as income, age, race, household structure, education, family relationships, occupation, and employment history.

## PROCESSING INFORMATION

These data and documentation are distributed in the form received by the ICPSR from the original investigator, thus the ICPSR can take no responsibility for the technical condition of the data or for the accuracy of the codebook.

1977 ANNUAL DEMOGRAPHIC FILE  
MARCH CURRENT POPULATION SURVEY

## TEXT SECTION

LOGICAL RECORD LENGTH = 342

FILE NAME: ANNUAL DEMOGRAPHIC FILE (ADF) FOR 1977.

THIS FILE IS ALSO KNOWN AS THE MARCH SUPPLEMENT OF THE CURRENT  
POPULATION SURVEY (CPS).

## INTRODUCTION:

THIS FILE PRESENTS CURRENT DATA ON THE COMPOSITION AND ECONOMIC STATUS OF THE POPULATION OF THE UNITED STATES. IT PROVIDES COMPREHENSIVE INFORMATION ON THE EMPLOYMENT STATUS, OCCUPATION, AND INDUSTRY OF PERSONS 14 YEARS OLD AND OVER. CHARACTERISTICS SUCH AS AGE, SEX, RACE, MARITAL STATUS, FAMILY RELATIONSHIP, INCOME, EDUCATIONAL BACKGROUND AND SPANISH ETHNICITY ARE SHOWN FOR EACH PERSON IN THE HOUSEHOLDS ENUMERATED. THE FILE CONTAINS 3 DIFFERENT RECORD TYPES. THESE TYPES ARE THE HOUSEHOLD, FAMILY AND PERSON RECORDS. HOUSEHOLD RECORDS CONTAIN THE GEOGRAPHIC INFORMATION AND LIMITED INFORMATION ON HOUSEHOLDS. FAMILY RECORDS CONTAIN INFORMATION ON FAMILY INCOME AND OTHER FAMILY CHARACTERISTICS. PERSON RECORDS CONTAIN DETAILED INCOME, EMPLOYMENT AND OTHER DEMOGRAPHIC DATA. EACH RECORD CONTAINS AN INDIVIDUAL WEIGHT.

## FILE STRUCTURE:

THIS FILE IS A HIERARCHICAL FILE CONTAINING THREE NESTED RECORD TYPES. THE HIGHEST LEVEL RECORD IS THE HOUSEHOLD RECORD. THIS RECORD IS FOLLOWED BY A FAMILY RECORD, WHICH IN TURN IS FOLLOWED BY THE PERSON RECORDS BELONGING TO THAT FAMILY. THESE RECORDS CAN BE IDENTIFIED BY THE CODE CONTAINED IN CHARACTER POSITION 331 OF EACH RECORD. A '1' IN THIS LOCATION INDICATES A HOUSEHOLD RECORD, A '2' INDICATES A FAMILY RECORD, AND A '3' INDICATES A PERSON RECORD.

## THE FILE WILL BE ORDERED AS FOLLOWS:

HOUSEHOLD RECORD FOLLOWED BY ONE OF THREE POSSIBLE STRUCTURES

A. IF THE HOUSEHOLD IS NOT A GROUP QUARTERS AND IT CONTAINS  
A PRIMARY FAMILY

1. THE PRIMARY FAMILY RECORD FOLLOWED BY PERSONS RECORDS FOR MEMBERS OF THE PRIMARY FAMILY WHO ARE NOT ALSO MEMBERS OF A SUBFAMILY.
2. THESE RECORDS MAY BE FOLLOWED BY ONE OR MORE SUBFAMILY RECORDS, EACH SUBFAMILY RECORD BEING IMMEDIATELY FOLLOWED BY PERSONS RECORDS FOR THE MEMBERS OF THAT SUBFAMILY.
3. THESE RECORDS MAY BE FOLLOWED BY ONE OR MORE SECONDARY FAMILY RECORDS, EACH SECONDARY FAMILY RECORD BEING IMMEDIATELY FOLLOWED BY PERSONS RECORDS FOR THE MEMBERS OF THAT SECONDARY FAMILY.
4. THESE MAY BE FOLLOWED BY ONE OR MORE SECONDARY INDIVIDUAL FAMILY RECORDS EACH TO BE FOLLOWED BY THE PERSON RECORD FOR THE SECONDARY INDIVIDUAL IT REPRESENTS.

## TEXT SECTION

B. IF THE HOUSEHOLD IS NOT A GROUP QUARTERS AND IT CONTAINS A  
PRIMARY INDIVIDUAL:

1. THE FAMILY RECORD FOR THE PRIMARY INDIVIDUAL  
IMMEDIATELY FOLLOWED BY THE PERSON RECORD FOR  
THAT PRIMARY INDIVIDUAL.
2. THESE RECORDS MAY BE FOLLOWED BY ONE OR MORE  
SECONDARY FAMILY RECORDS, EACH SECONDARY FAMILY  
RECORD BEING IMMEDIATELY FOLLOWED BY THE PERSONS  
RECORD FOR MEMBERS OF THAT SECONDARY FAMILY.
3. THESE RECORDS MAY BE FOLLOWED BY ONE OR MORE  
FAMILY RECORDS FOR SECONDARY INDIVIDUALS EACH  
FAMILY RECORD BEING IMMEDIATELY FOLLOWED BY THE  
PERSON RECORD FOR THAT SECONDARY INDIVIDUAL.

C. IF THE HOUSEHOLD IS ACTUALLY A GROUP QUARTERS:  
FAMILY RECORDS FOR EACH OF THE SECONDARY INDIVIDUALS,  
EACH FAMILY RECORD BEING IMMEDIATELY FOLLOWED BY A  
PERSON RECORD FOR THAT INDIVIDUAL.

NOTE 1: ALL RANGES SHOWN AS N REPRESENT THE LARGEST INTEGRAL VALUE  
POSSIBLE FOR THE FIELD SIZE, I.E., FOR A 3 DIGIT FIELD N=999

NOTE 2:

ALL FIELDS (EXCLUDING PADDING) ARE ZERO FILLED

NOTE 3: THE FOLLOWING ABBREVIATIONS ARE COMMONLY USED IN THIS TEXT

NIU = NOT IN UNIVERSE  
MIS = MONTH IN SAMPLE  
HH = HOUSEHOLD  
NC = NOT CODED

NOTE 4: THE FOLLOWING NAMING CONVENTIONS ARE USED:

ALL ITEM NUMBERS REFER TO THE CPS MARCH QUESTIONNAIRE  
ALL ITEM NAMES THAT BEGIN WITH B- ARE FROM BASIC CPS AND ARE FULLY EDITED  
ALL ITEM NAMES THAT BEGIN WITH BA- ARE ALLOCATION FLAGS FOR BASIC CPS  
ITEMS

ALL ITEM NAMES THAT BEGIN WITH D ARE FROM BASIC CPS AND ARE EDITED FOR  
A LIMITED UNIVERSE

ALL ITEM NAMES THAT BEGIN WITH R- ARE RECODES

NOTE 5: HOUSEHOLD SEQUENCE NUMBER -

HOUSEHOLD SEQUENCE NUMBER IS A UNIQUE NUMBER FOR EACH HOUSEHOLD IN THE  
FILE. THE SAME IDENTIFICATION NUMBER WILL APPEAR IN ALL RECORDS FOR  
A GIVEN HOUSEHOLD. THIS NUMBER WILL APPEAR IN DATA ELEMENT 'HH-SEQ-NUM'  
FOR HOUSEHOLD RECORDS, 'FF-SEQ-NUM' FOR FAMILY RECORDS, AND  
'PP-SEQ-NUM' FOR PERSON RECORDS.

NOTE 6: DUMMY FAMILY RECORDS HAVE BEEN GENERATED IN THE FILE FOR  
PRIMARY INDIVIDUAL AND SECONDARY INDIVIDUAL FAMILIES.

THESE FAMILY RECORDS CORRESPOND TO VALUES 4 AND 5 IN DATA ELEMENT  
'F-KIND' OR CODES 5, 6, 7, 8, OR 9 IN DATA ELEMENT 'F-RECODE-1'.

## USE OF THIS DATA BASE DICTIONARY:

THIS COMPUTER GENERATED REPORT DOCUMENTS THE DATA CONTENTS AND RECORD LAYOUT FOR THE 1977 ANNUAL DEMOGRAPHIC FILE (ADF). THIS REPORT IS ORGANIZED INTO 2 PARTS, ONE PART CONTAINING A GENERAL TEXTUAL DESCRIPTION OF THE FILE, AND ONE PART CONTAINING A DESCRIPTION OF EACH DATA ITEM IN THE FILE. THE DATA ITEM DESCRIPTION CONTAINS SEVERAL PIECES OF INFORMATION FOR EACH DATA ITEM AS FOLLOWS:

NAME: AN ARBITRARILY ASSIGNED 12 CHARACTER LABEL. IT MAY BE A MNEMONIC OR A NUMERIC VALUE INDICATING THE LOCATION OF THE VARIABLE ON THE SURVEY QUESTIONNAIRE.

DESCRIPTIVE LABEL: A 40 CHARACTER LABEL DESCRIBING THE DATA ITEM

LENGTH: THE SIZE IN CHARACTERS, OF THE DATA ITEM

BEGIN: THE LOCATION IN THE DATA RECORD OF THE FIRST CHARACTER OF THE DATA ITEM

MAXIMUM VALUE: THE HIGHEST VALUE THIS DATA ITEM MAY CONTAIN

MINIMUM VALUE: THE LOWEST VALUE THIS DATA ITEM MAY CONTAIN  
NOTE: MAXIMUM AND MINIMUM VALUES ARE DISPLAYED ONLY FOR CODE TYPE ITEMS [SUCH AS STATE CODE]

DATA CATEGORY: THIS FIELD INDICATES WHETHER THE DATA ITEM IS A NUMERIC ITEM WHICH CAN BE MEANINGFULLY PROCESSED ALGEBRAICALLY OR IF THE ITEM IS A CODE ITEM FROM WHICH IT WOULD NOT BE MEANINGFUL TO SUMMARIZE OR DERIVE PERCENTAGES

IMPLIED  
DECIMAL PLACES: THIS FIELD INDICATES HOW MANY, IF ANY, IMPLIED DECIMAL PLACES THE DATA ITEM CONTAINS

THE ASTERISK FOLLOWING THE NUMERIC VALUE FOR VALUE LABELS INDICATES THAT THE VALUE HAS BEEN FLAGGED AS A 'MISSING VALUE'.

## TEXT SECTION

## RECORDING MODE:

THESE FILES WILL NORMALLY BE RECORDED ON TAPE WITH :IBM: STANDARD LABELS. OPTIONALLY THE FILES CAN BE SUPPLIED ON UNLABELLED TAPES WITH A SINGLE TAPE MARK SEPARATING THE FILES.

## CHARACTER SET:

A LIMITED CHARACTER SET CONSISTING OF ALPHABETIC AND NUMERIC CHARACTERS ONLY IS USED IN THE DATA FILES. SEVEN TRACK TAPES WILL BE RECORDED USING THE BCD CHARACTER SET AND 9 TRACK TAPES WILL BE RECORDED USING THE EBCDIC CHARACTER SET.

## FILE SIZE AND COST:

DATA ARE CONTAINED IN A SERIES OF 342 CHARACTER RECORDS, ONE RECORD FOR EACH OF THE HOUSING UNITS IN THE SURVEY. THE TAPE FILE DISTRIBUTED CONTAINING THESE DATA ARE RECORDED WITH 58 342 CHARACTER RECORDS PER PHYSICAL BLOCK. TWO [2] REELS OF MAGNETIC TAPE RE REQUIRED. EACH REEL OF TAPE COSTS \$80.

## THESE FILES CAN BE ORDERED THROUGH:

DATA USERS SERVICES DIVISION  
BUREAU OF THE CENSUS  
WASHINGTON, D.C. 20233  
PHONE [301] 763-2400

THE DATA IS ALSO AVAILABLE RECORDED WITH SMALLER BLOCKSIZES FOR THOSE PURCHASERS WHO REQUIRE SMALLER BLOCKSIZES. ADDITIONAL REELS OF TAPE MAY BE REQUIRED WHEN COPIES ARE MADE USING SMALLER BLOCKSIZES. WHEN ORDERING PLEASE SPECIFY DENSITY AND TRACK DESIRED. PAYMENT MUST BE INCLUDED WITH THE ORDER.

1977 March Annual Demographic Microdata File  
(March Supplement of the Current Population Survey)

Introduction:

The Current Population Survey (CPS) provides current data on the economic status and activities of the population of the United States. Because it is not possible to develop one or two overall figures (such as the number of unemployed) that would adequately describe the whole complex of labor market phenomena, the CPS is designed to provide a large amount of detailed and supplementary data. Such data are made available to meet a wide variety of needs on the part of users of labor market information.

Thus the CPS is the only source of: monthly estimates of total employment (both farm and nonfarm); nonfarm self-employed persons, domestics, and unpaid helpers in nonfarm family enterprises; wage and salaried employees; and, finally, total unemployment whether or not covered by unemployment insurance.

It provides the only available distributions of workers by the number of hours worked (as distinguished from aggregate or average hours for an industry), permitting separate analyses of part-time workers, workers on overtime, etc. The survey is also the only comprehensive current source of information on the occupation of workers and the industries in which they work.

Information is available from the survey not only for persons currently in the labor force but also for those who are outside the labor force. The characteristics of such persons - whether married women with or without young children, disabled persons students, older retired workers, etc. can be determined. Information on their current desire for work, their past work experience and their intentions as to jobseeking are also available.

The March supplement to the CPS, known as the Annual Demographic File, provides annual data on the personal characteristics of the total population (both in and out of the labor force) e.g., age, sex, race, marital status, family structure, veteran status, education background, and Spanish ethnic origin.

Of particular interest to users of this March microdata file would be those reports based on information collected in March. These reports are:

P - 20 Population Profile of the United States  
P - 20 Housing and Family  
P - 20 Marital Status and Living Arrangements  
P - 20 Geographical Mobility  
P - 20 Educational Attainment  
P - 20 Persons of Spanish Origin in the  
United States  
P - 60 Household Money, Income and Selected  
Characteristics  
P - 60 Money Income of Families and Persons  
P - 60 Characteristics of the Low-Income  
Population

All Current Population Reports, including the other series for population estimates and projections and special censuses, may be obtained by subscription from the Government Printing Office (catalog number C3.186: (year) \$56.00 per year). Alternatively, single issues may be ordered separately; prices are provided in the Bureau of the Census catalog and in the "Selected New Publications" section of Data User News.

Questionnaire and Control Card Content:

Appendix B of this documentation shows the March 1977 Questionnaire and Control Card. Control Card items are transcribed onto the questionnaire in items 1-17, 25-33, 58, 60, and 65.

Since persons under 14 are not asked basic or March supplement questions, information about them is transcribed to the questionnaire in the following manner:

25. LINE NO.	26. RELATIONSHIP TO HEAD OF HOUSEHOLD (Control Card item 14b)	27. AGE (Mark one circle only)	28. RACE

Questionnaire Items 19-24 are asked only of civilians 14 years old and over. This part of the questionnaire is referred to as the monthly (basic) labor force items because these questions are asked every month of the CPS survey.

Questionnaire Items 34-63 are referred to as the March supplement items because these questions are asked only of persons of households in the March CPS sample. Please note that questions 34-50 are only asked of civilians 14 years old and over whereas questions 51-57 are asked of all persons (including Armed Forces) 14 years old and over.

Certain data items appearing on both the monthly (basic) questionnaire and the March supplement questionnaire may not have the same meaning. To avoid any misunderstandings, the user should refer to the glossary of this documentation.

File Size

This computer file is available at the following options:

<u>Track</u>	<u>Density</u>	<u>Blocksize</u>	<u>#of Tapes</u>	<u>Price</u>	<u>Record Size</u>
9	1600	19,836	3	\$240	342

7	556	5,130	7	\$560	342

Other blocksize options are available. For further information contact the Customer Services Branch of the Data User Services Division.

In total there are 288,254 records on this file. Specifically, there are 68,291 household records of which 55,540 are interviewed households; 49,212 family records; 874 subfamily records; 180 secondary family records; and 160,799 person records.

The file is ordered as follows.

Household record followed by one of three possible structures:

A. If the household is not a group quarters and contains a primary family.

1. The primary family record appears next followed by person records for members of the primary family who are not also members of a subfamily. The person records would be ordered: head of primary family, wife of primary family head, children of primary family head, and other relatives of primary family head.
2. The above records may be followed by one or more subfamily records, each subfamily record being followed immediately by person records for members of that subfamily. The person records would be ordered: head of subfamily, wife of subfamily head, and children of subfamily head.
3. The above records may be followed by one or more secondary family records, each secondary family record being immediately followed by person records

for members of that secondary family. The person records would be ordered: secondary family head, wife of secondary family head, children of secondary family head, and other relatives of secondary family head.

4. The above records may be followed by one or more secondary individual family records each to be followed by the person record for the secondary individual it represents. (See Figure 1).

B. If the household is not a group quarters household and it contains a primary individual.

1. The family record for the primary individual is followed immediately by the person record for that primary individual.
2. These records may be followed by one or more secondary family records, each secondary family record being immediately followed by the person records for members of that secondary family.
3. These records may be followed by one or more family records for secondary individuals. Each secondary family record being immediately followed by the person record for that secondary individual. (See Figure 2).

C. If the household is a group quarters, there will be a secondary family record for each secondary individual. The secondary family record will be immediately followed by the person record for that secondary individual. (See Figure 3).

#### Weighting Procedures:

In generating data tabulations from this file, the user should be aware that there are two weights for each person record. There weights are the basic (monthly) weight and the March supplement weight.

In creating data tabulations, the user should always use the March supplement weight whenever one of the tabulated variables is a supplemental questionnaire item. Otherwise, the basic weight should be used. For a more thorough

statement on how such person weights are generated, the user should consult Appendix A of this documentation.

Geographic Limitations:

It should be kept in mind that the sample design and methods of weighting CPS data are geared towards producing estimates for the entire nation. In producing estimates for States the user should be aware that the primary sampling units (PSU's) are drawn from strata which may or may not cross State lines. Consequently, the data would not be as reliable as national data and the file may lose some of its utility in certain applications. For further discussion of

such considerations, the user should consult Appendix A which discusses the estimation of sampling errors and CPS sample design.

The nature of the work done by each individual investigator using the microdata file will determine to what extent his requirements for precision will allow using some of the smaller geographic areas identified on the file.

GEOGRAPHIC CONCEPTS

Geographic Division - An area composed of contiguous States, with Alaska and Hawaii also included in one of the divisions. (A state is one of the 51 major political units in the United States.) The nine geographic divisions have been largely unchanged for the presentation of summary statistics since the 1910 census.

There are four regions: Northeast, North Central, South and West. The nine geographic divisions and four regions are presented below:

Standard Metropolitan Statistical Areas (SMSA's) - The concept of an SMSA has been developed in order to present general-purpose statistics. The geographic boundaries of SMSA's are drawn by the Office of Federal Statistical Policy and Standards, U.S. Department of Commerce, Washington, D.C., with the advice of representatives of the major Federal statistical agencies.

In 1970, there were 247 SMSA's in the United States. Generally speaking, an SMSA consists of a county or group of counties containing at least one city (or twin cities) having a population of 50,000 or more plus adjacent counties which are metropolitan in character and are economically and socially integrated with the central city. In New England, towns and cities rather than counties are the units used in defining SMSA's. The name of the central city or cities is used as the name of the SMSA. There is no limit to the number of adjacent counties included in the SMSA as long as they are integrated with the central city nor is an SMSA limited to a single State; boundaries may cross State lines, as in the case of the Washington, D.C. - Maryland - Virginia SMSA.

The 44 SMSA's identified in the 1977 Annual Demographic File are as delineated for the 1970 census with the exception of the Nassau-Suffolk SMSA which is identified although it was not designated as a separate SMSA until November 1972. Except for Nassau-Suffolk, these SMSA's do not reflect territorial changes resulting from the 1970 census or redefinitions by OMB since that time. The population residing in SMSA's constitutes the metropolitan population shown in various census publications.

Central Cities (of an SMSA) - The largest city in an SMSA is always a central city. The names of one or two additional cities may be added to the SMSA title and identified as a central city on the basis of the following criteria issued by OMB:

1. The additional city or cities must have a population of one-third or more of that of the largest city and a minimum population of 25,000 or;
2. The additional city or cities must have at least 25,000 inhabitants.

CURRENT POPULATION SURVEY  
1977 ANNUAL DEMOGRAPHIC FILE  
CONCEPTS

Age - Age classification is based on the age of the person at his/her last birthday.

Annuities - See "Income"

Armed Forces - The file includes members of the United States Armed Forces in the United States living off post or with their families on post, but excludes all other members of the Armed Forces. See also Labor Force.

Civilian Labor Force - See "Labor Force"

Class of Worker - Specifies "wage and salary workers" subdivided into private and government workers, "self-employed workers" and "unpaid family workers". Wage and salary workers receive wages, salary, commission, tips or pay in kind from a private employer or from a government unit. Self-employed persons are those who work for profit or fees in their own business, profession or trade, or operate a farm. Unpaid family workers are persons working without pay for 15 hours a week or more on a farm or in a business operated by a member of the household to whom they are related by blood or marriage. (See Industry, Occupation and Class of Worker).

Dividends - See "Income"

Basic Weight - Used to tabulate the (monthly) labor force items.

Duration of Unemployment - Duration of unemployment represents the length of time (through the current survey week) during which persons classified as unemployed had been continuously looking for work. For persons on layoff, duration of unemployment represents the number of full weeks since the termination of their most recent employment. A period of 2 weeks or more during which a person was employed or ceased looking for work is considered to break the continuity of the present period of seeking work. Average duration is an arithmetic mean computed from a distribution by single weeks of unemployment.

Earners, Number of - Includes all persons 14 years old and over, in the household with \$1 or more in wages and salaries, or \$1 or more or a loss in net income from farm or nonfarm self-employment.

Earnings - See "Income"

Education - See "Years of School Completed"

Employed - See "Labor Force"

ESR (Employment Status Recode) - The classification of each civilian 14 years old and over according to his/her responses to the monthly (basic) labor force items in March.

Experienced Labor Force - All employed persons and all unemployed persons except those who never worked at a full time job lasting at least 2 consecutive weeks.

Family - The term "Family", as used in this report, refers to a group of two or more persons related by blood, marriage, or adoption and residing together; all such persons are considered as members of the same family. Thus, if the son of the head of the household and the son's wife are in the household, they are treated as part of the head's family. On the other hand, a lodger and his wife not related to the head of the household or an unrelated servant and his wife are considered as additional families, and not a part of the household head's family.

Family Weight - The weight to be used in tabulating family characteristics.

Full-time Labor Force - Persons working on full-time schedules, persons Full-time Labor Force- Persons working on full-time schedules, persons involuntarily working part-time (part-time for economic reasons) such as slack work or material shortage and unemployed persons seeking full-time jobs.

Full-time Schedule - Persons on full-time schedules include persons working 35 hours or more, persons who worked 1-34 hours for noneconomic reasons (e.g., illness) and usually work full-time, and persons "with a job but not at work" who usually work full-time.

Farm Self-employment Net Income - Defined as net money income (gross receipts minus operating expenses) from the operation of a farm by a person on his own account, as an

owner, renter, or sharecropper. Gross receipts include the value of all products sold, government crop loans, money received from the rental of farm equipment to others, and incidental receipts from the sale of wood, sand, gravel, etc.

Operating expenses include cost of feed, fertilizer, seed, and other farming supplies, cash wages paid to farm hands, depreciation charges, cash rent, interest on farm mortgages, farm building repairs, farm taxes (not State and Federal income taxes) etc. The value of fuel, food, or other farm products used for household living is not included as part of net income. Inventory changes were considered in determining net income only when they were accounted for in replies based on income tax returns or other official records which reflect inventory changes:

Group Quarters - Group quarters are living arrangements for institutional inmates regardless of the number of inmates, or for other groups containing five or more persons unrelated to the person in charge.

Head of Household - One person in each household was designated as the "head". The number of heads, therefore, is equal to the number of households. The head of a household is usually the person regarded as the head by members of the household. Women are not classified as heads if their husbands are resident members of the household at the time of the survey. Married couples related to the head of a household are included in the head's household and are not classified as separate households.

Head With No Other Relatives in Household - A household head who has no relatives living in the household. This would be the entry for a person living alone. Another example would be the designated head of an apartment shared by two or more unrelated persons.

Head With Other Relatives (including wife) in Household - The person designated as head of the household if he has one or more relatives (including his wife) living in the household.

Highest Grade of School Attended - See "Years of School Attended"

Hours of Work - Hours of work statistics relate to the actual number of hours worked during the survey week. For

example, a person who normally works 40 hours a week but who was off on the Veterans Day holiday would be reported as working 32 hours even though he was paid for the holiday.

For persons working in more than one job, the figures relate to the number of hours worked in all jobs during the week. However, all the hours are credited to the major job.

Household - A household consists of all the person who occupy a house, an apartment, or other group of rooms, or a room, which constitutes a housing unit. A group of rooms or a single room is regarded as a housing unit when it is occupied as a separate living quarters; that is, when the occupants do not live and eat with any other person in the structure, and when there is either (1) direct access from the outside or through a common hall, or (2) a kitchen or cooking equipment for the exclusive use of the occupants. The count of households excludes persons living in group quarters, such as rooming houses, military barracks, and institutions. Inmates of institutions (mental hospitals, rest homes, correctional institutions, etc.) were not included in the 1977 survey.

Household Weight - Used in tabulating household characteristics.

Husband in Armed Forces - When a woman was reported as married but her husband was not enumerated as a member of the same household, an additional question was asked to determine whether her husband was in the Armed Forces. Women who were reported as separated were not asked the additional question.

Income - For each person in the sample who was 14 years old and over, questions were asked on the amount of money income received in the preceding calendar year from each of the following sources: (1) Money wages or salary; (2) net income from nonfarm self-employment; (3) net income from farm self-employment; (4) Social Security or railroad retirement; (5) Supplemental Security income; (6) public assistance or welfare payments; (7) interest (on savings or bonds); (8) dividends, income from estates or trusts, or net rental income; (9) veterans payment or unemployment and workmen's compensation; (10) private pensions or government employee pensions; (11) alimony or child support, regular

contributions from persons not living in the household, and other periodic income.

When an indefinite amount was reported by the respondent, a specific value was assigned wherever possible. If the indefinite amount was reported in terms of a range, the midpoint of the range was assigned (i.e., \$10,000 to \$15,000 was coded as (12,500). Open-ended amounts were converted to designated specific amounts; e.g., over \$10,000 may be coded as \$15,000.

Although income statistics refer to receipts during the preceding year, the characteristics of the person such as age, labor force status, etc., and the composition of households refer to the time of the survey. The income of the household does not include amounts received by persons who were members of the household during all or part of the income year if these persons no longer resided with the household at the time of enumeration. On the other hand, household income includes amounts reported by persons who did not reside with the household during the income year but who were members of the household at the time of enumeration.

Data on consumer income collected in the CPS by the Bureau of the Census cover money income received (exclusive of certain money receipts such as capital gains) before payments for personal income taxes, Social Security, union dues, Medicare deductions, etc. Therefore, money income does not reflect the fact that some households receive part of their income in the form of nonmoney transfers such as food stamps, health benefits, and subsidized housing; that many farm households receive nonmoney income in the form of rent free housing and goods produced and consumed on the farm; or that nonmoney incomes are also received by some nonfarm residents which often take the form of the use of business transportation and facilities, full or partial support for retirement programs, medical and educational expenses, etc. These elements should be considered when comparing income levels. Moreover, readers should be aware that for many different reasons there is a tendency in household surveys for respondents to underreport their income. From an analysis of independently derived income estimates, it has been determined that wages and salaries tend to be much better reported than such income types as public assistance,

Social Security, and net income from interest, dividends, rents, etc.

The various sources for which income is reported are defined as follows:

Questionnaire Item 51a

Money wages or salary is total money earnings received for work performed as an employee during the income year. It includes wages, salary, Armed Forces pay, commissions, tips, piece-rate payments, and cash bonuses earned, before deductions were made for taxes, bonds, pensions, union dues, etc.

Questionnaire Item 51b

Net income from nonfarm self-employment is net money income (gross receipts minus expenses) from one's own business, professional enterprise, or partnership. Gross receipts include the value of all goods sold and services rendered. Expenses include costs of goods purchased, rent, heat, light, power, depreciation charges, wages and salaries paid, business taxes (not personal income taxes), etc. In general, inventory changes were considered in determining net income, replies based on income tax returns or other official records do reflect inventory changes. However, when values of inventory changes were not reported, net income figures exclusive of inventory changes were accepted. The value of salable merchandise consumed by the proprietors of retail stores is not included as part of net income.

Questionnaire Item 51c

Net income from farm self-employment is net money income (gross receipts minus operating expenses) from the operation of a farm by a person on his own account, as an owner, renter, or sharecropper. Gross receipts include the value of all products sold, government crop loans, money received from the rental of farm equipment to others, and incidental receipts from the sale of wood, sand, gravel, etc. Operating expenses include cost of feed, fertilizer, seed, and other farming supplies, cash wages paid to farmhands, depreciation charges, cash rent, interest on farm mortgages, farm building repairs, farm taxes (not State and Federal income taxes), etc. The value of fuel, food, or other farm products used for family living is not included as part of

net income. In general, inventory changes were considered in determine net income only when they were accounted for in replies based on income tax returns or other official records which reflect inventory changes; otherwise, inventory changes were not taken into account.

Questionnaire Item 52a

Social Security includes Social Security pensions and survivors' benefits, and permanent disability insurance payments made by the Social Security Administration prior to deductions for medical insurance and railroad retirement insurance checks from the U.S. Government. "Medicare" reimbursements are not included.

Questionnaire Item 52b

Supplemental Security Income includes payments made by federal state, and local welfare agencies to low income persons who are (1) aged (65 years old and over), (2) blind, or (3) disabled.

Questionnaire 53a

Public assistance or welfare payments include public assistance payments such as aid to families with dependent children and general assistance.

Questionnaire Item 53 b & c

Interest, dividends, income from estates or trusts, net rental income or royalties include dividends from stockholdings or membership in associations, interest on savings or bonds, periodic receipts from estates or trusts funds, net income from rental of a house, store, or other property to others, receipts from boarders or lodgers, and net royalties.

Questionnaire Item 53d

Unemployment compensation veterans' payments, or workmen's compensation include: (1) Unemployment compensation received from government unemployment insurance agencies or private companies during periods of unemployment and any strike benefits received from union funds; (2) money paid periodically by the Veterans Administration to disabled members of the Armed Forces or to survivors of deceased

veterans, subsistence allowances paid to veterans for education and on-the-job training, as well as so-called "refunds" paid to ex-servicemen as GI insurance premiums; and (3) workmen's compensation received periodically from public or private insurance companies for injuries incurred at work. The cost of this insurance must have been paid by the employer and not by the person.

Questionnaire Item 53e

Private and government employee pensions include: (1) Private pensions or retirement benefits paid to a retired person or his survivors by a former employer or by a union, either directly or through an insurance company; (2) government employee pensions received from retirement pensions paid by Federal, State, county, or other governmental agencies to former employees (including members of the Armed Forces) or their survivors.

Questionnaire 53f

Annuities, alimony, regular contributions from persons not living in the household, and other periodic income include the following types of income: (1) Periodic receipts from annuities or insurance; (2) alimony and child support; (3) contributions received periodically from persons not living in the household; (4) other periodic income such as military family allotments, net gambling winnings, and other kinds of periodic income other than earnings.

Receipts not counted as income. Receipts from the following sources were not included as income: (1) Money received from the sale of property, such as stocks, bonds, a house, or a car (unless the person was engaged in the business of selling such property, in which case the net proceeds, would be counted as income from self-employment); (2) withdrawals of bank deposits; (3) money borrowed; (4) tax refunds; (5) gifts; and (6) lump-sum inheritances of insurance payments.

Industry, Occupation, and Class of Worker - Industry, occupation, and class of worker (I & O) always apply to the same job. For the employed, current job is the job held in the reference week (the week before the survey). Persons with two or more jobs are classified in the job at which they worked the most hours during the reference week. The unemployed are classified according to their latest full-time civilian job lasting 2 or more weeks or by the job (either full or part-time) from which they were laid off. The I & O questions are also asked of persons not in the labor force

who are in the 4th and 8th month in sample and who had worked in the last 5 years. Longest job applies to the I & O of the job held longest during the preceding year for persons who worked that year, without regard to their current employment status. The occupation/industry classification system for the 1970 Census of Population has been used to code March CPS data since 1971.

Subject	March CPS		Longest job
	Current or more recent job		last year (work experience)
Industry	3-digit detailed	P 49-51	P 151-153
	2-digit detailed	P 52-53	P 322-323
	(Recode)		
Occupation	Major Group recode	N/A	P 316-317
	3-digit detailed	P 56-58	P 154-156
	2-digit detailed	P 54-55	P 318-319
Class of Worker	(Recode)		
		P 59	P 315
	Major Group recode	N/A	P 320-321

Jobseekers - All unemployed persons who made specific efforts to find a job sometime during the 4-week period preceding the survey week.

Keeping House - Engaged in own housework.

Labor Force - Persons are classified as in the labor force if they were employed, unemployed, or in the Armed Forces during the survey week. The "civilian labor force" includes all civilians classified as employed or unemployed. The file includes labor force data for civilians age 14 and over. However, the official definition of the civilian labor force is age 16 and over.

1. Employed - Employed persons comprise (1) all civilians who, during the survey week, did any work at all as paid employees or in their own business or profession, or on their own farm, or who worked 15 hours or more as unpaid workers on a farm in a business operated by a member of the family, and (2) all those who were not working but who had jobs because of illness, bad weather, vacation, or Labor-Management dispute, or because they were taking time off for personal reasons, whether or not

they were seeking other jobs. These persons would have an Employment Status Recode (ESR) of one or two respectively in character 12 of the person record which designates "at work" and "with a job, but not at work". Each employed person is counted only once. Those persons who held more than one job are counted in the job at which they worked the greatest number of hours during the survey week. If they worked an equal number of hours at more than one job, they would be counted at the job they held the longest.

2. Unemployed persons are those civilians who, during the survey week, had no employment but were available for work and (1) had engaged in any specific jobseeking activity within the past 4 weeks, such as registering at a public or private employment office, meeting with prospective employers, checking with friends or relatives, placing or answering advertisements, writing letters of application, or being on a union or professional register; (2) were waiting to be called back to a job from which they had been laid off; or (3) were waiting to report to a new wage or salary job within 30 days. These persons would have an ESR Code of three in character 12 of the person record. The unemployed includes job leavers, job losers, new job entrant, and job reentrants.
  - a. Job Leavers - are persons who quit or otherwise terminated their employment voluntarily and immediately began looking for work.
  - b. Job Losers - are persons whose employments ended involuntarily who immediately began looking for work and those persons already on layoff.
  - c. New Job Entrants - are persons who never worked at a full-time job lasting 2 weeks or longer.
  - d. Job Reentrants - are persons who previously worked at a full-time job lasting 2 weeks or longer but were cut of the labor force prior to beginning

to look for work.

- e. Not in Labor Force - This includes all civilians 14 years and over who are not classified as employed or unemployed. These persons are further classified as "engaged in own home housework", "in school", "unable to work" because of long-term physical or mental illness, and "other". The "other" group includes for the most part retired persons, those reported as too old to work, the voluntarily idle, and seasonal workers for whom the survey week is an "off" season and who were not reported as unemployed. Persons doing only incidental unpaid family work (less than 15 hours) are also classified as not in the labor force.

For persons not in the labor force, data on previous work experience, intentions to seek work again, desire for a job at the time of interview, and reasons for not looking for work are asked only in those households that are in the fourth and eighth months of the sample, i.e., the "outgoing" groups, those which had been in the sample for 3 previous months and would not be in for the subsequent month.

These items are asked in question 24. See facsimile questionnaire in Appendix B. Such persons have an ESR code of 4-7 in character 12 of the person record.

Finally, it should be noted that the unemployment rate represents the number of persons unemployed as a percent of the civilian labor force 16 years old and over. This measure can also be computed for groups within the labor force classified by sex, age, marital status, race, etc. The job-leaver, job-leaver, reentrant and new entrant rates are each calculated as a percent of the civilian labor force 16 years old and over; the sum of the rates for the four groups thus equals the total unemployment rate.

Layoff - Unemployed but waiting to be called back to a specific job because one expects to be called back to work. If one expects to be called back within 30 days, it is considered a temporary layoff; otherwise, it is an indefinite layoff.

Looking for Work - Trying to get work or trying to establish a business or profession.

March Weight - Used to tabulate March supplement items.

Marital Status - The marital status classification identifies four major categories: Single, married, widowed, and divorced. These terms refer to the marital status at the time of enumeration.

The category "married" is further divided into "married, spouse present", "separated", and "other married, spouse absent". A person was classified as "married, spouse present" if the husband or wife was reported as a member of the household even though he or she may have been temporarily absent on business or on vacation, visiting, in a hospital, etc., at the time of the enumeration. Persons reported as "separated" included those with legal separations, those living apart with intentions of obtaining a divorce, and other persons permanently or temporarily estranged from their spouses because of marital discord. The group "other married, spouse absent" includes married persons employed and living for several months at a considerable distance from their homes, those whose spouses were absent in the Armed Forces, immigrants whose spouses remained in other areas, husbands or wives of inmates of institutions, and all other married persons (except those reported as separated) whose places of residence were not the same at that of their spouses.

For the purpose of this file, the group "other marital status" includes "widowed and divorce", "separated", and "other married, spouse absent".

Mobility Status - The population of the United States, 1 year old and over, was classified according to mobility status on the basis of a comparison between the place of residence of each individual at the time of the March 1977 CPS and the place of residence 1 year earlier.

The information on mobility status was obtained from the responses to a series of inquiries. The first of these was "Was...living in the house March 1 a year ago?" If the answer was "No", the enumerator asked, "Was ...living in

this same county on March 1 a year ago?" If the response was "No" again, the enumerator asked, "What State (or foreign country) was ... living in on March 1 a year ago?" In classification three main categories are distinguished: Nonmovers; Movers; Persons abroad.

Nonmovers are all persons who were living in the same house at the end of the period as at the beginning of the period. Movers are all persons who were living in a different house at the end of the period than at the beginning of the period. Movers from abroad include all persons, either citizens or aliens, whose place of residence was outside the United States at the beginning of the period, that is, in an outlying area under the jurisdiction of the United States or in a foreign country.

Month-In-Sample - The number of times a unit has been interviewed. Each unit will be interviewed eight times during the life of the sample. (Also see discussion of sample design).

Never Worked - A person who has never held a full-time civilian job lasting 2 consecutive weeks or more.

Nonfarm Self-employment Net Income - Defined as net money income (gross receipts minus expenses) from his own business, professional enterprise, or partnership. Gross receipts include the value of all goods sold and services rendered. Expenses include costs of goods purchased, rent, heat, light, power, depreciation charges, wages and salaries paid, business taxes (not personal income taxes), etc. In general, inventory charges were considered in determining records to reflect inventory changes; however, when values of inventory changes were not reported, net income figures exclusive of inventory changes were accepted. The value of salable merchandise consumed by the proprietors of retail stores is not included as part of net income.

Nonworker - A person who did not do any civilian work in the calendar year preceding the survey.

Nonrelative of Head With No Own Relatives in Household - A non-relative of the head who has no relative(s) of his own in the household. This category includes such nonrelatives as a foster child, a ward, a lodger, a servant, or a hired hand, who has no relatives of his own living with him in the household.

Nonrelative of Head With Own Relatives (including wife) in Household - Any household member who is not related to the head but has relatives of his own in the household. For example, a lodger, his wife, and their son.

Other Relative of Head - Any relative of the household head other than his wife; for example, his child, father, mother, grandson, daughter-in-law, etc.

Own Child - Child related by blood, marriage, or adoption to the family head.

Part-time , Economic Reasons - "Economic reasons" include: Slack work, material shortages, repairs to plant or equipment, start or termination of job during the week, and inability to find full-time work. (See also full-time labor force).

Part-time , Other Reasons - "Other reasons" include: labor dispute, bad weather, own illness, vacation, demands of home housework. school, no desire for full-time work, and full-time worker only during peak season.

Part-time Work - Persons who worked between 1 and 34 hours are designated as working "part-time" in the current job held during reference week. For the March supplement a person is classified as having worked part-time during the preceding calendar year, if he worked less than 35 hours of work per week in a majority of the weeks in which he worked during the year. Conversely, he is classified as having worked full-time if he worked 35 hours or more per week during a majority of the weeks in which he worked.

Part Year Work - Less than 50 weeks' work.

Population Coverage - The population covered includes the civilian population of the United States plus approximately 915,000 members of the Armed Forces in the United States living off post or with their families on post. but excludes all other members of the Armed Forces. This excludes inmates of institutions and persons residing in group quarters. The labor force and work experience data are not collected for Armed Forces members.

Poverty - In this file families and unrelated individuals are classified as being above or below the poverty level, using the poverty index adopted by a Federal Interagency Committee in 1969. This index provides a range of income cutoffs or "poverty thresholds" adjusted to take into

account such factors as family size, sex and age of the family head, the number of children, and farm-nonfarm residence. The poverty cutoffs are updated every year to reflect the changes in the Consumer Price Index. The average poverty threshold for a nonfarm family of four was \$5,500 in 1975. For a detailed explanation of the poverty definition, see Current Population Reports, Series P-60 No. 102 "Characteristics of the Population Below the Poverty Level: 1974".

For a detailed discussion of the Social Security Administration poverty standards, see Mollie Orshansky, "Counting the Poor: Another Look at the Poverty Profile", Social Security Bulletin, January 1965; and "Who's Who Among the Poor: A Demographic View of Poverty", Social Security Bulletin, July 1965.

Primary Families and Individuals - The term "primary family" refers to the head of a household and all other persons in the household related to the head by blood, marriage, or adoption. If nobody in the household is related to the head, then the head himself constitutes a "primary individual". A household can contain one and only one primary family or primary individual. The number of "primary" families and individuals is identical with the number of households.

Public Assistance - See "Income".

Race - The population is divided into three groups on the basis of race: White, Black, and "Other races". The last category includes Indians, Japanese, Chinese, and any other race except White and Black. In most of the published tables, "Other Races" are shown in combination with the Black population.

Receipts Not Counted as Income - Receipts from the following sources were not included as income: (1) Money received from the sale of property, such as stocks, bonds, a house, or a car (unless the person was engaged in the business of selling such property, in which case the net proceeds would be counted as income from selfemployment); (2) withdrawals of bank deposits; (3) money borrowed; (4) tax refunds; (5) gifts; and (6) lump-sum inheritances or insurance payments.

Reentrants - Persons who previously worked at a full-time job lasting 2 weeks or longer but who were out of the labor force prior to beginning to look for work.

Related Children - Children related to the family head by blood, marriage, or adoption.

School - A person who spent most of his time during survey week attending any kind of public or private school, including trade or vocational schools in which students receive no compensation in money or kind.

Secondary Family - A secondary family is a family that does not include among its members the head of a household and relatives of the head. Members of secondary families may include persons such as guests, lodgers, or resident employees and their relatives living in a household.

Persons living with relatives in group quarters were formerly considered as members of secondary families. However, the number of such families became so small (37,000 in 1967) that beginning with the data for 1968 (and beginning with the census data for 1960) the Bureau of the Census includes persons in these families in the count of secondary individuals.

Secondary Individual - A secondary individual is a person in a household or group quarters such as a guest, lodger, or resident employee (excluding primary individuals and inmates of institutions) who is not related to any other person in the household or group quarters.

Self-employed - Self-employed persons are those who work for profit or fees in their own business, profession, or trade, or operate a farm.

Stretches of Unemployment - A continuous stretch is one that is not interrupted by the person getting a job or leaving the labor market to go to school, to keep house, etc. A period of 2 weeks or more during which a person was employed or ceased looking for work is considered to break the continuity of the period of seeking work.

Spanish Origin - Persons of Spanish origin in this file were determined on the basis of a question that asked for self-identification of the person's origin or descent. Respondents were asked to select their origin (or the origin of some other household member) from a "flash card" listing ethnic origins. Persons of Spanish origin, in particular, were those who indicated that their origin was Mexican, Puerto Rican, Cuban, Central or South American, or some other Spanish origin.

Subfamily - A subfamily is a married couple with or without children, or one parent with one or more own single children under 18 years old, living in a household and related to, but not including, the head of the household or his wife. The most common example of a subfamily is a young married couple sharing the home of the husband's or wife's parents. Members of a subfamily are also members of a primary family. The number of subfamilies, therefore, is not included in the number of families.

Total Money Income - Defined as the arithmetic sum of money wages and salaries, net income from self-employment, and income other than earnings. The total income of a household is the arithmetic sum of the amounts received by all income recipients in the household.

Unable to Work - Because of long-term physical or mental illness, lasting 6 months or longer

Unemployed - See "Labor Force".

Unemployment Compensation - See "Income".

Unpaid Family Workers - Persons working without pay for 15 hours a week or more on a farm or in a business operated by a member of the household to whom they are related by blood or marriage.

Unrelated Individuals - Persons (other than inmates of institutions) who are not living with any relatives. An unrelated individual may be (1) a household head living alone or with nonrelatives only, (2) a lodger or resident employee with no relatives in the household, or (3) a group quarters member who has no relatives living with him. Thus, a widow who occupies her house alone or with one or more other persons not related to her, a roomer not related to anyone else in the housing unit, a maid living as a member of her employer's household but with no relatives in the household, and a resident staff member in a hospital living apart from any relatives are all examples of unrelated individuals.

Veteran Status - If a male served at any time during the four major wars of this century, the code for the most recent wartime service is entered. The following codes are used:

0. Females, children under 14
1. Vietnam era
2. Korean

3. WWII
4. WWI
5. Other Service
6. Nonveteran

Years of School Completed - Data on years of school completed were derived from the combination of answers to questions concerning the highest grade of school attended by the person and whether or not that grade was finished. Educational attainment applies only to progress in "regular" school. Such schools include graded public, private, and parochial elementary and high schools (both junior and senior high), colleges, universities, and professional schools, whether day schools or night schools. Thus, regular schooling is that which may advance a person toward an elementary school certificate or high school diploma, or a college, university, or professional school degree. Schooling in other than regular schools was counted only if the credits obtained were regarded as transferable to a school in the regular school system.

Wage and Salary Workers - Receive wages, salary, commission, tips, or pay in kind from a private employer or from a governmental unit.

Wages or Salary - Defined as the total money earnings received for work performed as an employee during the calendar year. It includes wages, salary, Armed Forces pay, commissions, tips, piece-rate payments, and cash bonuses earned, before deductions were made for taxes, bonds, pensions, union dues, etc. (See "Income").

Wife of Head - The wife of the household head. There can be only one wife of the head, even if there are two or more married couples living in the same unit.

Workers - Those persons who during the survey week did any work at all as paid employees, in their own business, profession, or farm, or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family.

Work Experience - Includes those persons who during the preceding calendar year did any civilian work for pay or profit or worked without pay on a family-operated farm or business at any time during the year, on a part-time or full-time basis.

Weeks Worked in the Income Year - Persons are classified according to the number of different weeks, during the

preceding calendar year, in which they did any civilian work for pay or profit (including paid vacations and sick leave) or worked without pay on a family-operated farm or business.

Year-round Full-time Worker - A year-round full-time worker is one who worked usually 35 hours or more per week for 50 weeks or more during the preceding calendar year.

### Appendix C, March 1977 Computer Record Layout

The attached listing identifies the character positions of the various data fields shown on the three types of records contained on this file.

The first record described is the household record. This record always appears first and summarizes selected characteristics of persons living in that household. The variables within the record are described in the following manner:

- Name: An abbreviated label, identifying the variable. It may indicate the location on the survey questionnaire by an item number.
- Label: A brief description of the variable.
- Length: The size in characters of the variable.
- Begin: The location of the first character of the variable within the record.
- Maximum Value: The highest value the variable may contain.
- Minimum Value: The lowest value the variable may contain.
- Data Category: This field indicates whether the variable is a numeric item which can be processed algebraically (i.e. age, incomes) or if its a code item (family type).
- Implied Decimal: This field indicates the numbers, if any, of implied decimal places contained in the variables.

Following this description of the variable, are listed the values that the variable can contain together with a description of the values (i.e. 1= primary family).

The family and person records follow and are documented in the same manner. One should consult the file format section

of the documentation to find out the sequence of the various records on this file.
