Note: Blanks indicate years and occupations for which Congressional Quarterly did not compile data. Some members say they have more than one occupation. Data counted as of the end of the first session of each congress. For the 83rd - 114th congress, these numbers reflect those reported by Congressional Quarterly, whose methodology has changed over time. CQ has since changed how this data is reported, so for the 115th congress occupations were coded based on information provided in member profiles published by CQ. Fluctuations in totals between congresses that are larger than the seats lost/gained between congresses represent these methodological changes.

Data from earlier years/previous versions of this table have been changed. Please see the errata document for more details.

a. For these congresses, CQ Almanac did not provide occupation data. Instead, data for each representative was taken from an earlier or later congress of which they were also a member. One-term members in these congresses were individually coded based on their biographical data.

b. Vital Statistics collects information on member demographics as of the first day of the Congress. For the 117th Congress, we include both Jon Ossoff and Raphael Warnock, who were elected on January 5, 2021, and Kamala Harris, who did not resign from office until January 18th, 2021.

Previous Source: In previous updates, this data was compiled from multiple sources, including: Congressional Quarterly Almanac (Washington, D.C.: Congressional Quarterly, various editions); Congressional Quarterly Weekly Report, various issues; Clerk of the U.S. House of Representatives, <http://clerk.house.gov>; Military Officers Association of America; Veterans in Congress, The Veterans of Foreign Wars National Legislative Service, "Representatives with Military Service, 108th Congress;" Veterans' Information: Veterans in Congress, House Committee on Veterans' Affairs.
