Prior to FY87, congressional budget resolutions did not contain unified (on- and off-budget) totals; all congressional figures from 1987 to the present are unified totals.

a. Larger figures for authority, outlays, and deficit assumed enactment of programs in a reserve fund.
b. This figure assumed enactment of the president’s health care reforms.
c. President Clinton indicated in his FY1999 and FY2000 budget proposals that the surplus would be reserved for the Social Security trust fund, pending a legislative solution. Thus, while the budget did not call the remainder a surplus, it is treated as such in this table.
d. Congress did not adopt a budget resolution.
e. Because the FY17 budget resolution was a "shell" intended to unlock the reconciliation process, the Budget Committees did not produce summary tables that included unified budget totals for outlays and revenues.
