2022	99	n.a.	19	99	n.a.	26

n.a. = not available
Note: Years marked with an asterisk are calculated using a different methodology than all other years. In all other years, the percentages are normalized to eliminate the effects of absences as follows: $\text{support} = (\text{support})/(\text{support} + \text{opposition})$. For 1995-96 and 2006-present, the percentages are not normalized, so absences reduce the average score. Updating of this data to match the normalization for other years is in progress.
